

Head of Maintenance

Brooke House College – Market Harborough, Leicestershire Full-time, Permanent

Brooke House College is an independent boarding school with a collection of historic and listed buildings — many of which need ongoing care and attention. We're looking for a practical, experienced Head of Maintenance to lead our small team and take hands-on responsibility for the upkeep and repair of the College estate.

This is a varied and rewarding role for someone who enjoys solving problems, working with their hands, and looking after heritage buildings that really matter.

What you'll be doing:

- Carrying out and supervising day-to-day repairs and maintenance (plumbing, carpentry, decorating, general building).
- Planning and organising routine maintenance and improvement works.
- Leading and motivating a small, friendly maintenance team.
- Working with trusted local contractors when specialist help is needed.
- Making sure all work is safe, compliant, and done to a good standard.

What we're looking for:

- Strong, hands-on building maintenance skills and experience with older properties.
- A practical background in a trade such as plumbing, carpentry, or general building.
- Experience leading or supervising a small team.
- A reliable, can-do attitude and good organisational skills.
- Full UK driving licence.

We offer:

- Competitive salary, based on experience.
- Pension and staff benefits.
- On-site accommodation may be available for the right person.

If you take pride in your work and like the idea of caring for characterful old buildings, we'd love to hear from you.

To apply:

Please send your CV and a short cover letter to;

Josef Inman-Hall,

Operations Manager
